ÍTALO FERREIRA CARVALHO

Brasília, DF, Brazil | +55 61 999878043 | italocarvalho684@gmail.com | linkedin.com/in/italocarvalho1

SUMMARY

Senior Mobile Developer with 9+ years of experience building high-impact iOS and React Native applications. Background spans native banking apps serving millions of users in Brazil to regulated digital health products for a VC-backed Silicon Valley startup. Known for combining deep native expertise with cross-platform React Native delivery, and for helping teams deliver quality work faster.

EDUCATION

- **Universidade Católica de Brasília -** Bachelor in Computer Science **2013 - 2017**
- **Apple Developer Academy** - iOS Development Training Program **2015 - 2017**
- **Instituto de Educação Superior de Brasília** - Lato Sensu Specialization in Mobile Development **2018 - 2020**

EXPERIENCE

Senior Mobile Developer, BairesDev **Jan 2022 - Present**

Client: BrightInsight, regulated digital health platform (apps built for Sanofi, CSL and Roche)

- Develop new features end-to-end with React Native and TypeScript, from technical design to production release on iOS and Android
- Take part in architecture decisions, such as state management with Redux, project structure and reusable component patterns
- Write unit and integration tests with Jest to prevent regressions in a regulated product
- Review pull requests and mentor engineers on React Native best practices, TypeScript typing and testing
- Investigate and fix bugs, including platform-specific issues, using native iOS knowledge when needed
- Wrote a significant portion of the code foundation, which allowed the team to deliver features faster
- Follow strict regulatory procedures to keep users and their health data safe and secure

Tech stack: React Native, TypeScript, Redux, React Navigation, Jest, REST APIs, i18n, Git, CI/CD with BitRise, Firebase Crashlytics, Native Modules, Keychain/Keystore, Push Notifications, Deep Linking, and others.

Senior Mobile Developer, Capgemini **Sep 2019 - Jan 2022**

- Designed and implemented the building blocks of a low-code platform using JavaScript on both the client and server side
- Developed Open Finance features for a banking app, contributing with financial inclusion and digital access in Brazil
- Built and documented analytics features to translate business needs into meaningful and reliable metrics
- Helped improve code quality by performing code reviews, writing unit tests, and setting up automated processes

Mobile Developer, Stefanini Group **Sep 2017 - Aug 2019**

- Laid the groundwork for introducing React Native into a massive codebase of a banking app
- Improved accessibility and inclusiveness by building voice recognition features and leveraging the React Native a11y API
- Migrated dozens of screens to React Native and helped maintain interoperability with existing native code
- Participated in the release process, resolving issues effectively and quickly in order to minimize impact to users

iOS Developer, Cast Group **Mar 2017 - Sep 2017**

- Developed and maintained data visualization features for a personal finance and budgeting mobile platform
- Built reusable and highly customizable UI components using view code and NIBs
- Implemented a caching mechanism using Core Data and REST API integrations to provide a much faster user experience
- Collaborated closely with UX designers, backend developers and QA engineers to design, build, test, and improve the project

SKILLS

React Native, Expo, Redux, React Navigation, Axios, iOS (Swift, Obj-C), Android (Java), JavaScript, TypeScript, Node.js, REST APIs, AWS, Git, CI/CD, Agile/Scrum, Accessibility (a11y), AI-assisted development.

CERTIFICATIONS

Professional Scrum Master I (PSM I), AWS Certified Cloud Practitioner.
